

RISK MANAGEMENT

THE RIGHT SOLUTIONS TO PROTECT PERFORMANCE

As part of our risk protection plan, we always conduct a comprehensive risk assessment to understand your business, evaluating every aspect including your industry, facilities, equipment, product or service and employees. With better understanding, we are able to advise you on setting up captives, self-insured retentions and other alternative risk transfer techniques.

Customized Solutions

Jones DesLauriers Insurance Management Inc. can provide a comprehensive risk management program to your company including:

Contract Review

Review of your customer contracts for insurance compliance and exposure mitigation. Review of your supplier contracts to ensure adequacy of insurance.

Premises Liability Survey of Hazards

Complete review of physical liability hazards including trip and fall hazards, life safety factors, fire alarm systems, acceptability and adequacy of exits.

Employment Practices

Coverage for costs associated with lawsuits emanating from harassment, discrimination and disputes over the employment contract, except for deliberate fraud or violations of law.

Employee Absenteeism Preparedness

Evaluation of contingency arrangements to deal with pandemic flu or Ingress/Egress issues that leave companies suffering significant losses unless planning has been complete.

Employee Theft/ Dishonesty

We can assess your overall security measures and develop a plan to manage your company's risks including:

- * Limit employee access to inventory
- * Keep excess cash properly secured
- * Control physical assets
