How do Navacord, JDIMI, AllMed, and the Professional Liability Program work together?

The Professional Liability Program (PLP) has supported Ontario dentists for more than 50 years, providing specialized professional liability protection and expert claims support tailored and dedicated to the dental profession.

As of January 1, 2026, the PLP became part of Navacord. Today, Navacord continues to work in partnership through your insurance broker Jones DesLauriers Insurance Management Inc. (JDIMI) and AllMed Underwriting to deliver and administer the program for all Ontario dentists.

While you may now see the Navacord name and use a new online renewal platform, the foundation of the program remains the same. The experienced teams behind the PLP, JDIMI, and AllMed continue to work together to provide customized Professional Liability Coverage, claims expertise, underwriting support, and dedicated service to Ontario's dental community.

This partnership combines more than five decades of PLP experience with the resources and strength of Navacord, ensuring Ontario dentists continue to benefit from a trusted, profession-focused insurance program designed specifically for your needs.

What is Primary Professional Liability – Basic Coverage?

Professional Liability Coverage is the mandatory coverage required for all licensed dentists in Ontario. Also known as **Errors & Omissions (E&O) Coverage** or **Medical Malpractice Coverage**, it helps protect you against claims arising from your professional services as a dentist.

The coverage responds to allegations of negligence, errors, omissions, or failure to provide appropriate care, whether those allegations are actual or alleged. It also provides coverage for legal expenses incurred in investigating and defending covered claims.

Key features of the Professional Liability Coverage include:

1. Coverage limits of \$2 million per claim and \$6 million annual aggregate.
2. Lifetime tail coverage at no additional premium.
3. One premium, for every licensed dentist in Ontario.
4. Specialized claims handling and support from professionals experienced in dental professional liability matters.

This coverage forms the foundation of the Professional Liability Program and is designed specifically to protect dentists throughout their professional careers.

Who do I contact if I have a Professional Liability claim?

If a patient is alleging professional negligence, demanding compensation, threatening legal action, or you otherwise become aware of a potential professional liability claim arising from your dental services, you should immediately report the matter to the Professional Liability Program (PLP).

The PLP provides specialized claims support and legal protection for covered professional liability claims, including the investigation and defense of claims, as well as covered settlements, damages, and legal expenses.

Do I need Excess Professional Liability Coverage?

Many dentists choose Excess Professional Liability Coverage to increase the protection provided by the Primary Professional Liability Coverage. As claim settlements, legal defense costs, and awards continue to increase, additional coverage can provide valuable peace of mind.

Excess Professional Liability Coverage extends your protection beyond the \$2 million limit included with your primary coverage, helping safeguard your reputation, practice, and financial future in the event of a significant professional liability claim.

For many dentists, the question is not whether a claim will occur, but whether they have sufficient protection in place should a claim exceed their primary Professional Liability Coverage limits.

What is Excess Professional Liability Coverage?

Excess Professional Liability Coverage increases the protection available above the \$2 million per claim limit included with your primary Professional Liability Coverage.

The Navacord Dental Insurance Program, provides exclusive excess follow-form protection, meaning your Excess Professional Liability Coverage is designed to align with your Primary Professional Liability Coverage. Limits are

available up to \$25 million, providing you with increased protection and peace of mind for your practice and professional reputation.

What Excess Professional Liability Coverage limits are available?

Additional Excess Professional Liability Coverage limits are available in the following amounts:

- \$1 million
- \$2 million
- \$3 million
- \$8 million
- \$23 million

When combined with your primary Professional Liability Coverage, total limits of up to \$25 million are available.

What Excess Professional Liability Coverage limit should I purchase?

The right limit is the one that gives you confidence and peace of mind in your day-to-day practice. When deciding how much Excess Professional Liability Coverage to purchase, consider:

- **The scope & size of your practice:** A larger patient base, broader range of services, and wider patient profile can increase your exposure to potential claims.
- **Your years in practice:** The longer you have been practicing, the greater your overall exposure to professional liability claims over time.
- **The location of your practice:** Some communities may be more likely to pursue legal action than others.
- **Your personal tolerance for risk:** Consider the balance between cost and protection, and ask yourself: "What level of coverage will help me sleep at night and protect my personal assets?"

Many dentists choose to increase their Professional Liability Coverage limits for added peace of mind, knowing they have additional protection in place should a significant claim arise.
